Zain Khan

contact@zpashakhan.com | www.linkedin.com/in/zain-khan-6a7767333

Professional Summary

Information Science (BS) student at the University of Colorado Boulder with a Computer Science minor, seeking a part-time IT support role. Hands-on experience with hardware, networking peripherals, cybersecurity, and technical troubleshooting across school and professional environments, plus projects in machine learning and SQL.

Experience

Sales Generalist 2026 – Present
Best Buy
- Assist customers in choosing consumer electronics and matching products to their needs.
- Provide product knowledge and technical guidance across multiple departments.

Technology Support Assistant 2023 – 2024
Pine Creek High School Technology Office
- Provided hands-on support for desktops, Chromebooks, Macs, projectors, and networking peripherals.
- Assisted students with troubleshooting and device maintenance.
- Worked independently and collaboratively to ensure smooth day-to-day technology operations.

Inventory and Production Team Member 2022 – 2024
First Call Cabinets
- Managed inventory for cabinet production materials and tools.
- Collaborated with a larger team on cabinet construction involving frequent heavy lifting.

Floater Teacher 2021 – 2026
The Learning Experience
- Supported lead teachers with classroom operations and guided small group activities.
- Implemented curriculum and maintained attendance and medication records via iPad software.
- Provided troubleshooting support for classroom technology.

Projects

Predicting Car Fuel Economy (Machine Learning) 2026
- Built linear and polynomial regression models in Python with pandas and scikit-learn to predict fuel economy for 398 cars; the polynomial model reached an R-squared of 0.89 on cars held out for testing.
- Cleaned the data (missing values, typos, encoding), examined correlations, and used K-means clustering to group similar cars.

Camera Database Schema (SQL) 2026
- Designed a relational database schema for camera bodies, lenses, and lens mounts, with an ER diagram.
- Wrote SQL joins to look up which lenses fit a given camera.

CyberPatriot 2020 – 2024
- Competed in national machine security hardening competition covering server, Windows, and Linux hardening with heavy terminal usage.
- Advanced to semifinals prior to nationals in 2022.

SecureSet 2018 – 2022
- Completed cybersecurity program focused on ethical hacking, Linux systems, terminal usage, and virtualized environments through hands-on courses and events.

Skills

Technical: Windows, macOS, Linux, Python, SQL, Machine Learning, Data Analysis, Computer Hardware, Peripherals and Equipment Setup, Networking Peripherals, Virtualized Environments
Tools and Software: Jupyter, pandas, scikit-learn, matplotlib, Microsoft Excel, iPad Software (attendance and records management)
Professional: Data Entry, Inventory Tracking, Technical Troubleshooting, Documentation

Certifications

- Information Technology Specialist, Certiport
- IT Fundamentals Pro, TestOut Corporation
- Adobe Certified Specialist, Adobe
- Professionalism101, Pikes Peak Business & Education Alliance

Education

University of Colorado Boulder
Bachelor of Science, Information Science; Minor in Computer Science. *Expected 2028*
